Professional Summary:

I am a Full-Stack developer with over two years of experience in developing and designing interactive web applications. I combine expertise in front-end development using React.js, JavaScript, and Tailwind CSS with back-end development using Node.js, Express.js, and MongoDB. I also possess experience in computer maintenance, including diagnosing and repairing motherboard, graphics card, power supply, and monitor issues, as well as installing operating systems and device drivers. I am seeking to utilize my technical skills in a professional software development environment.

Technical Skills:

Front-end development: Materials/Tailwind CSS/CSS3/HTML5/JavaScript ES6+/React.js

Back-end development: API Integration/MongoDB/RESTful APIs/Express.js/Node.js

Development tools: Postman/npm/VS Code/GitHub/Git

Operating systems and software: Windows installation (7, 10, 11), driver configuration, system performance optimization, hardware upgrades

Microsoft Office applications: PowerPoint/Excel/Microsoft Word; email management

Work Experience:

Developer | Full-Stack Freelancer:

January 2023 – Present

- Developed and built interactive and responsive user interfaces using React.js / JavaScript ES6+ / Tailwind CSS.
- Designed and implemented integrated backend systems using Node.js / Express.js / MongoDB.
- Built RESTful APIs for connecting frontends to databases.
- Managed version control and software collaboration using Git and GitHub.
- Developed and deployed complete web projects on cloud hosting platforms.

Computer Technician:

2023 – Present

- Diagnosing and repairing motherboard, graphics card, power supply, and monitor faults.
- Assembling custom desktop computers to meet client needs.
- Installing Windows operating systems (7, 10, 11) and configuring drivers.
- Optimizing system performance and upgrading RAM, GPU, and SSD hardware.
- Installing Microsoft Office applications and managing email.

Education:

Bachelor of Computer Technology | Faculty of Applied Sciences, Damascus University

2024

Training Courses:

- ICDL Computer Skills
- Front-End Development
- Back-End Development
- Integrating Front-End and Back-End Systems

Languages:

Arabic: Very good.

English: Intermediate.
